BEHNAZ SOHRABIAN

Born and educated in Thehran, Iran, Behnaz Sohrabian discovered her love of art, freedom and creative expression as a small child, developed a passion for painting and began her professional art career at the age of 10. Behnaz has earned a B.S. in Applied Chemistry, a B.A. in Painting and a Master of Arts in Art Studies. After completing her Master's Degree, she immigrated to the United States in 2010 and became a naturalized U.S. citizen in 2017.

"My aim is to paint simply. Apply easy brush strokes. Emphasize light and shadow and the dynamics between the subject and background. I choose varied subject matter to convey the concept of femininity with simplicity, natural beauty and inspiration. Women, flowers and mother earth symbolize the essential power of creation in our world. They interact with an intentionally sensuous dance that expresses the process of fertility and reproduction, strength and compassion. My art explores the drama, texture and wonder of this creative process."
